CHEMRITE

AIR CONDITIONER COIL CLEANER

ChemRite® Coil Cleaner is an acid cleaner and rust stripper with special penetrating and wetting agents which make it extremely effective for rust, scale, or lime removal. Good on ferrous and non-ferrous (copper, brass, bronze, and aluminum) metal surfaces.

DIRECTIONS: For normal use the concentration ranges from 1:3 with water and could be applied by spray or by circulation method, followed by water rinse. Although ChemRite® Coil Cleaner is effective at room temperature, its activity increases with temperature. Operating temperatures with this product range from 80-120°F.

NOTE: This product contains Hydrofluoric Acid and Phosphoric Acid which are corrosive. Avoid contact with skin and eyes; and wear adequate protective rubber clothing, goggles, etc., when handling acidic products.

Extremely Dangerous Chemicals
Wear protective clothing, including gloves
and eyeglasses when handling.

TYPICAL PHYSICAL CHARACTERISTICS

Appearance	Clear liquid	Solubility in Water	Complete
pH	1.5 concentrate	Evaporation Rate	1
Boiling Point	215°F	Specific Gravity	1.21
Vapor Density	1		

ORDERING INFORMATION

Part Number	Size	Net Weight
0070-02-2000-01	1-gallon (3.8 ltr.)	9.9 lbs. (4.5 kg)
0070-02-2000-05	5-gallon (19 ltr.)	49.5 lbs. (22.5 kg)
0070-02-2000-55	55-gallon drum (209 ltr.)	544.5 lbs. (247.5 kg)
